Welcome to Dr. Gupta Verlag

Dear customers,

with our magazines, newsletters, homepage, und specialist books we provide you technical knowledge, market information, trade fair reports, relevant news, and information on innovations from the international polymer industry.

Based on the material groups of **rubber, polyurethane** and **thermoplastic elastomers** our focus is on:

- new developments in raw materials,
- processing technologies,
- measuring and testing methods,
- 3D printing as well as
- machinery and equipment engineering.

We report application-oriented and publish technical articles from universities, research institutions and industry.

You will find us and our magazines at important national and international trade shows and conferences.

Our readers are decision makers from management as well as technical, marketing and sales staff from companies of the processing industries such as automotive, E & E, building & construction, industrial applications, medical & consumer, household appliances & furniture.

TPE Magazine International is the world's first and only technical magazine dedicated exclusively to thermoplastic elastomers.

Since 2009, **TPE Magazine International** has been providing information for the thermoplastic elastomers producing and processing industries.

TPE Magazine International is published four times a year, has a worldwide distribution and is valued throughout the entire industry as a specialist publication.

We would be pleased to offer you our expertise as a service for your company.

Use TPE Magazine International as the optimal platform to successfully present your company and products.

We are looking forward to a good and trusting cooperation with you!
